Israel

This is not a war crime but a crime against humanity

The world witnessed horrible and malicious terrorist crimes against Israel and its civilian population. These are not war crimes but crimes against humanity once they took place by the politically elected government of Gaza – Hamas.

On Saturday morning, the 7th of October, 2023, Israel woke up to a nightmare. Hundreds of terrorists or more armed from head to toe with machineguns, hand grenades, explosives, missiles, and much more attacked civilian territories near the border, carrying out more than 1,200 cold-blooded murders, in some cases, carrying out the beheading of infants, kidnapping unarmed civilians, including women and children, in some cases infants and babies, unhealthy elders and more along with soldiers.

Many governments worldwide strongly condemned these terrorist actions carried out by Hamas and other Islamic fundamentalist organizations against the innocent civilians living in Israel, sometimes calling these actions war crimes.

Article 7 of the ROME STATUTE OF THE INTERNATIONAL CRIMINAL COURT defines that "crime against humanity" is any of the following acts when committed as part of a widespread or systematic attack directed against any civilian population, with knowledge of the attack, including Murder or Imprisonment or other severe deprivation of physical liberty in violation of fundamental rules of international law or Torture or Enforced disappearance of persons or Other inhumane acts of a similar character intentionally causing great suffering, or serious injury to body or mental or physical health.

Israel doesn't necessarily need to take criminal actions using the International Criminal Court but can and is acting to ensure the total defense of its borders and civilians. While doing so, Israel has the full legal support to carry out attacks against any enemy, whether inside a bunker or in any private or public building.

While doing so, international law gives Israel the power to act by putting a complete siege on Gaza, cutting all supplies, and controlling all communications. Also, Israel can take total control of Gaza by conquering the entire Gaza Strip.

Anyone who gets his fist ready for a fight against Israel, its civilians, or its soldiers must be attended to with the harshest fire and fury Israel offers.

Israel will prevail, and its enemies will seek comfort with their Gods in hell.
